Park Assist – Parallel Park, Parking Exit and Perpendicular Park	Our Park Assist system makes parallel parking in a tight spot easier than ever by steering your car into a suitable space. You just have to select the appropriate gear and control the car's speed. Park Assist will also steer you out of a space, taking all of the stress out of parking. Graphics and notifications guide you through both maneuvers.	\$900
Advanced Tow Assist	Advanced Tow Assist allows the customer to control the direction of their trailer when reversing by using the rotary terrain response controller. The system will control the vehicle's steering to achieve the desired trailer trajectory. The Touchscreen will display status information and also feedback about the current and desired trailer trajectory.  Requires Surround Camera and Terrain Response® 2.	\$400

DESCRIPTION		PRICE
Adaptive Cruise Control with Queue Assist and Intelligent Emergency Braking	<p>Stay relaxed, whether you're cruising on the highway or travelling in slow-moving traffic, knowing that this system will keep your car a set distance from the one in front. If the car in front slows, your car reduces speed to maintain a safe distance and resumes its pre-set speed as soon as the road in front is clear.</p> <p>Should the vehicle in front stop completely, your car will come to a smooth halt. Once the traffic moves, simply touch the accelerator and Adaptive Cruise Control will resume following the car in front.</p> <p>If a collision is unavoidable, Adaptive Cruise Control will engage Intelligent Emergency Braking. This system can help reduce injuries and damage by automatically applying the brakes.</p>	PACKAGE
SEATING		\$800
18 way Powered Seats with Memory, Front Seat Articulation and Massage	-	\$800
MULTIMEDIA		\$7,950
10" Rear Seat Entertainment	<p>The Rear Seat Entertainment System provides big-screen entertainment for rear passengers, offering two 10" high definition seat mounted articulating screens, a pair of WhiteFire® digital wireless headphones, HDMI, Mobile Hi-definition link, USB connector and a dedicated remote control. It also includes 'Journey Status', a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination.</p> <p>Only available with seat packages that include the feature Driver and Front Passenger Upper Seat Articulation.</p> <p>WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under license.</p>	\$2,200
Head-up Display	The laser-based Head Up Display projects a selection of vehicle data onto the windshield in the driver's line of sight for quick and convenient visibility.	\$1,300
Meridian™ Reference Sound System	<p>The Range Rover Sport offers state-of-the-art audio systems developed by Meridian, global leaders in digital signal processing and audio technologies. This super premium 1700 Watt system has 22 speakers, 22 channels, and a dual channel subwoofer, with four loudspeakers located in the roof lining delivering an even more realistic musical performance. Whilst all sound systems offer highly optimized sound quality, the 1700 Watt system incorporates Meridian Trifield* 3D technology, which provides greater control over the content of the surround and side channels, as well as additional signal feeds for height speakers. This innovative technology expands the sense of space within the cabin, providing a personal, realistic three-dimensional listening experience in every seat.</p> <p>Your entertainment system comes with 'Conversation Assist'†, a feature that aids normal conversation between</p>	\$4,450

DESCRIPTION	PRICE
everyone in the vehicle. A microphone is linked from the rear seats to speakers in the front. No additional speakers are required.	
*Trifield and the "three fields" device is a trademark of Trifield Productions Ltd. †Please contact your local Land Rover Retailer for details and availability.	
	TOTAL \$14,900
